BLAST OVEN CLEANER

DESCRIPTION: A New Oven Cleaner very effective in removing carbonaceous soils such as baked or burned on oils, fats, proteins, starches, sugars, greases, glue, adhesives, etc. It adheres to and dissolves soil on vertical and overhead surfaces. It will not harm stainless steel or vitreous tile surfaces found in food plants. It can be used as received, or diluted with up to 20 parts water to clean all types of food processing equipment, including, but not limited to, ovens, grills, vats, kettles, deep fat fryers, potato chip and doughnut machines.

SAFETY: It will remove alkyd and lacquer-based paints. Use with care on painted surfaces. Do not use on aluminum, tin or zinc plated surfaces. Pitting and surface deterioration may result.

DIRECTIONS FOR USE:

For Carbonaceous Soils: Apply undiluted with paint roller or brush, swab, low pressure sprayer, etc. Apply only to surfaces which do not exceed 160 F. Allow to stand 20 - 30 minutes. Agitation of treated surfaces with stiff bristle brush will improve soil removal of heavy crustations. Rinse thoroughly with potable water.

It may be diluted with up to 20 parts warm water for more economical use on horizontal surfaces.

Hot Tank Cleaning: Dilute with up to 20 parts water for the cleaning of small equipment. Solutions may be heated to 180-200 F to provide faster and more effective cleaning. Rinse all cleaned equipment thoroughly with potable water. Remove all aluminum parts from gas burners before immersing them in cleaning solutions.

Deep Fat Fryers: Dilute with up to 20 parts water depending on the degree of soil to be removed. Heat solution to 180-200 F for 15 to 20 minutes. Drain and rinse thoroughly with potable water.

NOTICE:

The information contained herein, is to the best of our knowledge and belief, accurate. Since the conditions of handling and use are beyond our control, we make no guarantee of results. We assume no liability for damages or penalties resulting from our suggestions or recommendations, nor are these to be taken as a license to operate under, or recommendations to infringe, any patent.

SPECIFICATIONS:

Color.....	Milky White
Fragrance.....	Lemon
Type of surfactants.....	Non-ionic
Toxicity.....	Skin & Eye irritant
Phosphates.....	None
Viscosity @ 77 F.....	3000+/-500 cps
pH.....	14
Active ingredients.....	28%
Specific gravity.....	1.173+/-010
Hard water compatibility.....	Good
Shelf life.....	1 year
Grease cutting ability.....	Excellent
Soil penetration.....	Superior

CAUTION

**KEEP OUT OF REACH OF CHILDREN
DO NOT TAKE INTERNALLY
PROTECT FROM FREEZING**
