CITRUS FRESH

A Natural Based Emulsion Cleaner

DESCRIPTION: This product a blend of natural solvents, detergents, and surfactants. It is designed to remove grease and oil from hard surfaces, such as concrete, metal and other hard surfaces painted or unpainted. It is a heavy cleaner that works without the use of petrochemical solvents, chlorinated solvents, glycol ether or hard alkalis, acids or other toxic chemicals.

It performs excellent on heavy duty cleaning jobs. It can be diluted with water for more economical use and can be foamed on for longer vertical hang time.

It has a refreshing fragrance which is a pleasant change from the strong odors associated with the harsh or toxic solvents that this product replaces. This fragrance is not a perfume but the scent of this natural solvent.

Regular use will keep drains clean, deodorized and free draining. Eliminates the timely and costly job of manual cleaning. Controls odor around sewage treatment plants, dumpsters and landfill areas, while not affecting bacterial action.

USE DIRECTIONS:

This product may be applied manually by a brush, sponge or mop and bucket method. The product can be applied by a pressure washer and also used in an immersion tank. It is safe on most metals, painted or unpainted. Test for safety on plastic and painted surfaces.

MANUAL CLEANING: Dilute cleaner with water 4 to 1 or up to 20 to 1. Wipe off residue.

PRESSURE SPRAY: Dilute cleaner with water 10 to 1 or up to 20 to 1.

TANK IMMERSION: Dilute cleaner with water 4 to 1 or up to 1.

DEODORIZING: Add 4 ounces to a gallon of cold water to control odors around garbage disposal areas, septic tanks, kennels, etc. Around sewage plants, can be applied by drip method or fogging.

For extremely heavily soiled surfaces use as supplied or diluted with water up to 3 to 1.

DRAIN MAINTENANCE: Use weekly to keep drains & grease traps free flowing and sanitary. Pour 8 ounces down drain, let stand for 10 minutes. Flush drain with hot water. If drain is slow repeat 2-3 days until drain is flowing freely.

NOTICE:

The information contained herein, is to the best of our knowledge and belief, accurate. Since the conditions of handling and use are beyond our control, we make no guarantee of results. We assume no liability for damages or penalties resulting from our suggestions or recommendations, nor are these to be taken as a license to operate under, or recommendations to infringe, any patent.

PROPERTIES:

Appearance.....	Clear Orange liquid
Odor.....	Pleasant citrus odor
Biodegradable.....	Yes
Density.....	8.14 lb/gal
pH.....	8.5-9.5
Flash point.....	185 F Cleveland Open Cup
Wetting Ability.....	Excellent
Phosphates.....	None
Rinsing.....	Excellent
Stability.....	Stable in hard water
Emulsification.....	Rapid
Foaming Ability.....	Copious foam

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Combustible liquid. Keep away from heat, sparks, and fire. Keep container closed when not in use. Effect on skin and eyes; drying to skin, irritating to eyes. For eye contact, flush with water for at least 15 minutes and GET MEDICAL ATTENTION. For skin contact, flush promptly and thoroughly with water.

do not breathe vapors. Use product with adequate ventilation and keep vapors away from sparks or open flame. The U. S. Department of labor Guide for Safety and Health Standard proscribes that all employees within range of any steam cleaning vapor be protected by a suitable face shield. Conduct steam cleaning with adequate ventilation so that the operator does not breath fumes constantly.

CAUTION
KEEP OUT OF REACH OF CHILDREN
DO NOT TAKE INTERNALLY
PROTECT FROM FREEZING
