FINISHING TOUCH

High Speed Burnishing Compound

DESCRIPTION: This is an advanced formulated product for spray cleaning modern floor finishes. It is a vast improvement over the watered down version of a floor finish. This product is a clear cleaner maintainer that contains mild surfactants, detergents, and solvents. Formulated to clean the floor without damage to finish film. It will clean and polish without the excess powdering of the wax containing formula. This product will remove black marks, scuffs, soil and yet bring up a spectacular gloss to your floor finish. The resultant gloss remains slip-resistant. Your results will make you proud of the beauty and safety of the floor.

ADVANTAGES:

- Fast cleaning.
- Improves appearance.
- Safe underfoot.
- No powering.
- Pads clean up easier.
- No messy mixing of product.
- Removes cloudy look of floor.
- Removes black marks & scuffs.

RECOMMENDED USES: This product should be used in the traffic lanes and heavy wear areas of wax floors to restore and improve appearance. It prolongs the life of a floor finish and greatly extends the time between strippings and re-coatings. Can be used on vinyl asbestos, asphalt, vinyl tiles, terrazzo, Mexican tile, quarry tile, or any floor that usually is waxed. This product is a great time saver.

DIRECTIONS: Sweep and/or damp mop floor area to be treated. Spray a light fog of this product on washable area of floor. Place a red or gold pad under machine and buff dampened area until dry and bright. Continue procedure until the total area is buffed. When pads load up with dirt, turn & use reverse side. When finished with job, wash out pads so they will be ready for future use. Dust mop floor to remove any residue from buffing. An alternate method for high speed buffers is as follows: Mix with equal parts of water into mop bucket. Wring out mop and damp mop floor. Hi speed with red or gold pad until dry and bright. After cleaning with red or gold pads, high speed or buff your floor with the white pad for the ultimate in gloss.
