FREEZER LOCKER CLEANER

DESCRIPTION: A hard-working, ready-to-use, floor and wall cleaner for use in all sub-freezing, cold storage, freezer areas, freezer lockers and market freezer display cases.

ADVANTAGES:

- Resists freezing to 20EF.
- No residual after-cleaning odor.
- Immediately starts to dissolve grime and suspend soil.
- Authorized by USDA for use in Federally Inspected meat & poultry plants.
- Aids in melting existing ice formations.
- Formulated for use with conventional or automatic scrubbers.

SUGGESTED USES: For removal of dirt, grime, fat and grease, deposits from concrete, quarry tile, metal and ceramic tile surfaces.

DIRECTIONS FOR USE:

CONVENTIONAL ROTARY FLOOR MACHINE - Equip machine with aggressive brush such as steel wire. Spray, mop or spread ready-to-use cleaner on surface, scrub and allow solution to remain on surface for 5 minutes. Scrub again and pick up soiled solution with wet-vacuum or mop.

MANUAL CLEANING - Apply cleaner by spray, mop or sponge and follow by aggressive double brushing or scrubbing. Pick up soiled solution with wet-vacuum, mop or by wiping. This product is intended for use as is, but under conditions of temperatures above 20EF, and reduced soil, some dilution up to 2 part cleaner to 1 part water will give satisfactory results. Remove or carefully protect food products. After use, food contact surfaces must be rinsed with potable water.

NOTICE:

The information contained herein, is to the best of our knowledge and belief, accurate. Since the conditions of handling and use are beyond our control, we make no guarantee of results. We assume no liability for damages or penalties resulting from our suggestions or recommendations, nor are these to be taken as a license to operate under, or recommendations to infringe, any patent.
