MOP OFF

Heavy Duty & Build Up Wax & Finish Remover

DESCRIPTION: This stripper is a special emulsifier that immediately liquefies our modern cross-linked floor finishes, resulting in removal of the floor finish without the use of a floor machine and strip pad. This stripper allows you to strip your floors, pick up and rinse, and be ready for the first coat in one-half to two-thirds the time that conventional floor strippers require. A deodorant has been added to neutralize the odor of the chemicals at the recommended product dilution.

RECOMMENDED USES: For the removal of metal crossed link polymer floor finishes, water emulsion floor wax, acrylic undercoater sealers from vinyl asbestos, vinyl, asphalt tiles, terrazzo, quarry tile and other types of floors. Especially formulated to remove floor finishes that have been burnished by normal spray buffing or buffing under high speed machines.

ADVANTAGES:

- Can be used in hot or cold water
- Works in soft or hard water
- Removes heavy build-up
- Contains deodorant
- Easily removes finishes burnished by high speed machines
- Will strip polymer or waxes
- Strips undercoater sealers
- Contains no soap
- Controlled foam for vacuum use
- Biodegradable

DIRECTIONS FOR USE:

LIGHT BUILD UP: Mix 1 part stripper to 3 parts warm water. Mop on liberally on floor for 8 to 15 minutes. Mop up or vacuum the emulsified finish and rinse with clean water.

HEAVY BUILD UP: Mix 1 part stripper to 1 part warm water. Mop on liberally on floor for 8 to 15 minutes. Mop up or vacuum the emulsified finish and rinse with clean water.

Note: Heavy build ups may require a second application. To enhance the application for your floor finish a neutralizer rinse is recommended.
