PREPARE

LIQUID LAUNDRY BREAK & PRE-SOAK

DESCRIPTION: PREPARE Liquid Laundry Break is a clear, highly concentrated liquid blend of heavy duty alkaline builders, stain fighters, sequestering and soil suspending agents. PREPARE supplies additional power to release even the most difficult "soiled in" stains. Once released from the fabric, the soil suspending ingredients and the unique anti-redeposition agent keep the soil in the wash solution.

ADVANTAGES: This specific combination of highly concentrated and active ingredients gives superior cleaning results thus eliminating or reducing costly re-washes and spot treatments.

USE DIRECTIONS: PREPARE Liquid Laundry Break can be used alone in the brake cycle or in conjunction with all other FURBISH laundry products. Not recommended for natural silk or wool.

CONCENTRATION: Use 3-6 ounces per 100 pounds dry laundry.

TIME AND TEMPERATURE: PREPARE Liquid Laundry Break is completely soluble at all normal water temperatures and conditions. Optimum soil release occurs in warm to hot, 90 - 145 degree water. Effective soil removal at the concentrations and temperatures recommended may be obtained during a normal 4-6 minute cycle.

SAFETY: Alkaline liquid. Avoid contact with skin and eyes. In case of contact, immediately flush skin or eyes with plenty of water. For eyes, continue flushing with water for at least 15 minutes and get medical attention.

KEEP OUT OF REACH OF CHILDREN

SPECIFICATIONS:

Appearance	Clear liquid
Fragrance	Mild
Penetration	Excellent
pH @ 1%	13.2
Solubility	Complete
Rinsing	Total
Specific Gravity	1.410
Biodegradable	Yes
Wetting Ability	Instant
Foam	None
Stability	Stable
P.P.G.	11.74 lbs/gal

CAUTION

KEEP OUT OF REACH OF CHILDREN
 DO NOT TAKE INTERNALLY
 PROTECT FROM FREEZING
