

## Matrix Microencapsulated Organic Gel Refills For Fan Dispensers

- **Microencapsulated time-release formula delivers even, consistent air freshening that lasts longer than 30 days**
- **Five premium fragrances made from botanical extracts contain odor counteractants that scientifically eliminate odors**
- **Matrix organic gel refills are "spill proof" for easier handling and work in virtually any fan dispenser**

Matrix pushes gel fragrancing to new heights with an unprecedented combination of microencapsulated, time-released fragrance together with premium odor counteractants in a single new formula. The unique formula utilizes an intricate gel matrix to simultaneously provide time-released air freshening and odor elimination. The Matrix provides the correct balance of fragrance cells and odor counteractants to release the precise dosage of molecular structures and deliver maximum performance from a gel.

## TimeMist Space Commander Spill Proof Refills

- **The easy-to-replace, virtually spill-proof refills save you messy clean-up and reduce labor costs.**
- **The liquid refills are wafer-sealed during use to help prevent accidental spills.**
- **Four nature-inspired fragrances are available to appeal your senses.**

Space Commander Air Freshener System is so easy to use, economical and effective. The natural-smelling fragrances of Space Commander are dispersed by a silent fan within the dispenser. The fan operates continuously by replaceable D-cell battery for almost a month.
