LR 30 AUTOMATIC FLOOR SCRUBBER

LR 30

LR 30 AUTOMATIC FLOOR SCRUBBER

Powerful performance, unsurpassed scrubbing mechanics in a rugged, state-of-the-art package

LR 30 FLOORKEEPER®

From the industry leader in automatic scrubbing technology comes the LR 30 Floorkeeper. Combining the Tornado traditions for rugged rotationally-molded construction and unsurpassed scrubbing mechanics, the LR 30 takes industry standards to a new level. Infinitely adjustable solution flow rate control and three-position vacuum switch are among the many features that make this unit a significant time and cost saver in your floor maintenance program.

The LR 30 is a 30", full-duty automatic scrubber with enormous tank capacities for minimal interruption.

The perfect unit for all environments from the rigors of heavy industry to the high standards of health-care facilities and retail stores, the LR 30 is the answer to the most demanding of applications.

A permanently sealed transaxle eliminates the need to lubricate and maintain chains, sprockets, shafts, and bearings. Cast aluminum linkage arms are rust-free and help absorb front-end collisions. This state-of-the-art unit takes automatic scrubbing to a new level of ease and performance.

State-of-the-art
Multi-function LCD control panel is easy-to-use. The on-board computer keeps a variety of timers to automate your service intervals.

Service-friendly
The LR 30's modular construction simplifies routine maintenance and repair needs.

Rugged
A water-tight box protects critical controls from moisture damage.

Maintenance made simple
Locking, gas-assisted lift-arm holds the upper tank securely in place, making battery maintenance safe and hassle-free.

Professional features
Large 30-gallon solution and recovery tanks, swing squeegee, and 3-stage vac motor meet the demands of everyday large area floor maintenance.

Versatile
The unit is suitable for warehouse, industrial, and health care environments, as well as retail operations.

Maneuverability
Variable speed and a tight turning radius make the LR 30 easy to handle.

Smart design
The easy-empty recovery tank hose is efficient and readily accessible. Rugged, I-beam construction and a permanently sealed transaxle minimize maintenance time.

Disc brushes
The unit can be fitted with a variety of optional scrub brushes or pad holders for a host of applications.

PRODUCT SPECIFICATIONS
