BR AND BD TRIKE AUTOMATIC SCRUBBERS

BR TRIKE

BD TRIKE

Attractive design, advanced engineering,
unsurpassed performance

BR/BD TRIKE

This breakthrough ride-on scrubber puts you in the driver's seat for incredible comfort, maximum efficiency, and a "fun at work" experience for automatic scrubbing. Whether it is a long corridor or a wide-open factory floor, operators will love working with the Trike. E

Choose the BD Trike, with its traditional disc scrubbing head, or the BR Trike, whose cylindrical roller brushes are perfect for architectural flooring such as quarry tile, pavers, textured sports floors, etc.

AUTOMATIC SCRUBBING MADE EASY

Ten convincing arguments...

1

Innovative design

The BR and BD Trikes have the sleek look of a motor scooter with ease of handling to match. A contoured, cushioned saddle relieves stress for extended scrubbing projects.

2

Simple operation

With minimal controls that are ergonomically positioned, operator training is simple. Automobile-style foot pedals control driving, scrubbing, and vacuuming, as well as solution flow. The brush and vac motors are switched on and off when the scrubbing head and squeegee are lowered or raised, respectively.

3

Smart construction

A rotationally-molded housing accommodates the solution and recovery tanks as well as the battery pack. The front wheel steering makes extremely tight turns possible both in the forward and reverse modes.

4

Ease of use

The BR and BD models allow quick change of brushes and pads.

BR TRIKE

Disc pads

The BD Trike is equipped standard with 15" pad holders. When used with the appropriate pad this is the ideal solution to daily maintenance cleaning.

Disc brushes

The BD Trike's scrubber head can be fitted with a variety of optional scrub brushes - a time-proven solution for smooth floors.

Cylindrical brushes

The BR Trike comes standard with black brushes for daily cleaning operations. A variety of brushes are available for high performance on structured flooring.

BR AND BD TRIKE AUTOMATIC SCRUBBERS

5

Battery package

Both the BR and the BD come complete with batteries, charger, and battery indicator. Order gel batteries and charger for maintenance-free operation.

6

The Trike - as versatile as it is innovative. The unit is ideal for applications from industrial facilities to health care environments and retail sales floors.

7

Tank-in-tank system

Within the unit's double-walled housing are a 20-gallon solution and a 20-gallon recovery tank.

8

High-performance squeegee
All Trikes are equipped with an adjustable, curved squeegee.

9

Cylindrical pads

The BR Trike can be fitted with a unique roller shaft that accepts individual pads. Each pad can be changed if damaged without the need to replace an entire single pad.

10

Safety is a priority

The BD and the BR Trike are built for safety and are the perfect ride-on units for a variety of facilities.

PRODUCT SPECIFICATIONS

MODEL	CATALOG NUMBER	COVERAGE PER HOUR	SCRUBBING WIDTH	CURVED SQUEEGEE	DRIVE MOTOR	VAC MOTOR	SOLUTION/RECOVERY CAPACITY	BRUSH SPEED	WEIGHT (W/OUT BATTERIES)	DIMENSIONS (L x W x H)
